

**** Brand New Consumer Data to Market ****

Easy Education Announce the Release of their On and Offline Members through Wyvern Direct Response

Most of us are in the same boat nowadays. Desperately looking for new files for our clients to test on one hand and on the other looking for new good quality opt in email data to include in the mix.

Today's not for profit sector is big business. It runs very much upon commercial lines and with roles being roughly equivalent to those in business.

We are delighted to announce the arrival of the Easy Education, a database which:

- a) Is brand new to the market
- b) is full of personalised opt-in email addresses
- c) is no older than 12 months old

What could be better?! "RATES" I hear you cry! "I NEED DECENT TEST RATES OTHERWISE I CAN'T TOUCH IT WITH A BARGE POLE".

Don't panic! Just give us a call and let's see what volumes we have based on your selections. Then, we are happy to discuss what we can do for you within your budget restraints.

Who knows what is possible!

Call us now to talk to us about this brand new, fresh database to the market.

For more information, or same day counts and selections, please do not hesitate to call Richard or myself on +44 1353 667733 or email wdr@wyverndm.co.uk.

Kind regards
Omar
